

Software Engineer Intern

Intelligent Product Solutions (<http://intelligentproduct.solutions>) is a leading product development professional services company. The leadership and senior engineering team are deeply talented with unparalleled experience in industry and consulting services. Our client base includes some very well-known Fortune 100 brands as well as budding startups. Because of our explosive growth, we are seeking talented individuals to join our team.

Our company is seeking highly motivated, detail-oriented **Software Engineer Interns** who enjoy working on diverse and challenging projects. We're led by our values of honest, collaborative, problem-solving and we take both our work, and our fun, seriously.

We're looking for the next bright minds to assist us with some exciting new projects we have in the pipeline. The right candidates will join a team of Software Engineers on one of several projects currently in development.

Requirements

- Computer Science, or Software Engineering Major
- A strong foundation in data structures and algorithms
- A passion for learning new technologies
- Strong analytical skills

Preferred Skills

- iOS Swift/Objective C
- Android
- Nodejs
- React/React Native

Learning Outcomes

At the end of this internship, candidates will have gained real world experience working on production level software. They will participate in agile processes such as scrum as well as use industry standard tools and technologies to complete every day tasks.
